

## Hands-on Workshop on Operation, Test and Repairs of Ge Detectors

### FINAL INFORMATION

The first "*Hands-on Workshop on Operation, Test and Repair of Ge detectors*" will start in few days at the Institute of Nuclear Physics of the University of Cologne. The workshop will start on Tuesday, September 4<sup>th</sup>, at 14:00 and will finish on September 7<sup>th</sup> at 12:30.

In the Workshop website you can find the indications to arrive to IKP where you will find, inside the building, the indications to arrive to the IKP Seminar Room.

For Thursday evening, we have made a reservation at "Haus Töller" which is close to Barbarossa-Platz behind the hotel Ibis. The dinner has to be ordered and paid "à la carte" by the participants.

We wish you a safe trip to Cologne!

Regards,

The Organizing Committee

ENSAR2 has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 654002.
